Nexora AI Call Terms of Service for Business (Self-Serve)

Version 1.1.0 · Effective date: 1 December 2026

These Terms of Service for Business ("**Terms**") are a binding agreement between the business or organisation that registers for the Service (the "**Customer**") and [บริษัท สยามวอยซ์ เอไอ จำกัด / Siam Voice AI Co., Ltd.] ("**Nexora AI Call**"), Tax ID [เลขประจำตัวผู้เสียภาษี 13 หลัก], head office at [ที่อยู่สำนักงานใหญ่ / Head office address], Bangkok. They apply to small and medium businesses and enterprises that sign up online ("self-serve"). Customers with a negotiated Enterprise Service Agreement and Order Form are governed by that agreement, which prevails over these Terms in case of conflict.

The person who accepts these Terms represents that they are authorised to bind the Customer. Where the Customer is a Thai juristic person, it must be registered with the Department of Business Development (DBD) or an equivalent foreign registry.

1. Definitions

1.1 **Service**: Nexora AI Call AI phone assistant (outbound and inbound AI calls), Chinese–Thai translation bridge calls, SMS, LINE Official Account messaging, the enterprise knowledge base ("brain"), AI drafting of business documents (quotations, contract packs), number rental, prepaid wallet, subscriptions, dashboards and the API.
1.2 **Tenant**: the Customer's workspace on the platform.
1.3 **Tenant Admin**: the Authorised User who administers the Tenant.
1.4 **Authorised User**: an employee or contractor of the Customer permitted by the Tenant Admin to use the Service.
1.5 **API Key**: credentials issued to access the API.
1.6 **Customer Data**: all data the Customer or its users submit, including contact lists, call audio, transcripts, messages, documents and knowledge-base content.
1.7 **Contact Data**: personal data of the Customer's customers, leads and other call or message recipients.
1.8 **Supplier**: licensed telecommunications operators and other suppliers whose services Nexora AI Call resells or uses, including an affiliated supplier within Nexora AI Call's owner's group.
1.9 **Documents**: the Acceptable Use Policy (AUP), the Service Level Agreement (SLA), the Data Processing Agreement (DPA), the Refund and Billing Policy, the Referral Program Terms (if the Customer takes part in the referral program), the Privacy Policy and the price list.

2. Formation, order of documents

2.1 These Terms form on acceptance at signup or checkout. Nexora AI Call records acceptance (document key, version, hash, IP, user agent, time) under the Electronic Transactions Act B.E. 2544 (2001).
2.2 Order of precedence: (1) a signed Enterprise Service Agreement/Order Form (if any); (2) the DPA as to personal data; (3) these Terms; (4) the AUP; (5) the SLA; (6) the Refund and Billing Policy and other Documents.

3. Account, KYC and verification

3.1 The Customer must complete know-your-customer verification. KYC levels: L0 (unverified; trial only); L1 (phone and e-mail verified); L2 (company documents submitted and approved: DBD company affidavit not older than six months, VAT registration (Por.Por.20) where applicable, director's ID card or passport, and authorised signatory evidence); L3 (enterprise contract). Limits on daily spend, outbound calls per day and new distinct numbers per day depend on level.
3.2 Nexora AI Call may reject, suspend or re-verify any account, request additional documents or a liveness check, and apply fraud scoring leading to allow, review or block decisions.
3.3 KYC documents are kept for the duration of the relationship and five (5) years after termination for anti-fraud and legal-compliance purposes.
3.4 The Customer warrants that all registration information is true, and will update it within fourteen (14) days of change.

4. Authorised users and Tenant Admin

4.1 The Customer designates at least one Tenant Admin, who may invite, role-assign and remove Authorised Users, manage numbers, API Keys, retention settings, budgets and approvals.
4.2 The Customer is responsible for all acts and omissions of its Authorised Users and anyone using its credentials as if they were its own. Seat limits and role definitions are those of the chosen plan.
4.3 Credentials may not be shared. The Customer must remove access of departing personnel promptly and enable multi-factor authentication where offered. Two-factor authentication (TOTP) is mandatory for the Tenant owner/administrators and for users with finance roles (billing, top-up, refunds, tax documents). Nexora AI Call sends login alerts for new devices or unusual locations (IP geolocation/network and device fingerprint) to the user and, where relevant, the Tenant administrators, as a security measure under its legitimate interest; the Customer must act promptly on alerts and report suspected compromise at once. Changes to payment, billing or tax details may require additional authentication or approval.
4.4 Nexora AI Call may rely on instructions from the Tenant Admin.

5. API Keys and technical access

5.1 API Keys are confidential and tied to the Tenant. The Customer must store them securely, rotate them at least every twelve (12) months or on suspicion of compromise, and not embed them in client-side code.
5.2 The Customer is responsible for all calls, messages and charges made with its API Keys until it revokes them.
5.3 Webhooks are signed with HMAC-SHA256; the Customer must verify signatures. Nexora AI Call may

apply rate limits and may change the API on notice under section 20, preserving backward compatibility for a reasonable period.
5.4 The Customer may not use the API to build a competing service or to resell the Service except under a reseller or agent agreement.

6. Caller ID and number ownership

6.1 Every caller ID or sender ID used must be a number owned or lawfully rented by the Customer, rented through Nexora AI Call, or verified by the Customer by OTP call or SMS. Enterprise numbers are bound to the Customer's business registration (tax ID/DBD number).
6.2 **Spoofing, masking another party's number or showing a number the Customer has no right to use is prohibited** and will be rejected and may result in immediate suspension and reporting.
6.3 Numbers rented through Nexora AI Call remain subject to the telecommunications regulatory regime and the Supplier's terms; they are a right of use, not property. On termination or non-payment, rented numbers may be released after notice. Porting-in of the Customer's own numbers is subject to Supplier and regulatory processes and fees.
6.4 The Customer indemnifies Nexora AI Call for third-party claims arising from a number the Customer had no right to use.

7. AI disclosure and behaviour of the Service

7.1 At the start of every AI call, the AI states that it is an AI assistant and, for outbound calls, that it is calling on behalf of the Customer's named business. This disclosure cannot be disabled, and the Customer shall not instruct or configure the AI to conceal it.
7.2 The Customer must configure the AI scripts, the knowledge base and escalation rules accurately. The AI follows Customer instructions and may not be used to make binding offers beyond the authority the Customer defines.
7.3 AI output may contain errors. Translation, transcripts and AI-drafted quotations, contracts or other documents are drafting aids and must be reviewed by the Customer (and, for legal documents, by qualified counsel) before use or signature.
7.4 The Service does not support emergency calls (191, 1669, 199 and similar) and must not be used for them.

8. Roles under data protection law

8.1 With respect to Contact Data, the **Customer is the data controller** and Nexora AI Call acts as **data processor** under the Personal Data Protection Act B.E. 2562 (2019) ("PDPA"), processing only on the Customer's documented instructions as set out in the DPA. For account, billing, KYC, security and fraud-prevention data about the Customer and its users, Nexora AI Call is an independent controller and processes under its Privacy Policy.
8.2 The Customer is solely responsible for having a valid lawful basis under PDPA section 19, section 24 or other applicable basis, and for giving notices, for every contact it uploads, calls or messages, including

consent where required (for example, for marketing and for recording) and for the accuracy of Contact Data.
8.3 The Customer must make the call-recording notice and obtain consent where recording or transcription is enabled, and must configure retention. Default retention: call recordings 90 days (configurable per tenant); transcripts one (1) year; billing and accounting records ten (10) years; audit logs five (5) years; support tickets three (3) years.
8.4 The Customer authorises Nexora AI Call's sub-processors listed in the DPA (including LLM, speech recognition and synthesis, cloud hosting in Thailand or Singapore per the Tenant's storage region, payment, telephony/SMS suppliers, LINE Corporation, e-mail and monitoring providers) and acknowledges cross-border transfers under PDPA sections 28 and 29 as described in the DPA. Nexora AI Call does not train AI models on Customer Data unless the Customer opts in through a separate checkbox; vendors are contractually prohibited from doing so.
8.5 Nexora AI Call will notify the Customer of a personal data breach affecting Contact Data without undue delay and in any event in time to allow the Customer to notify the PDPC within seventy-two (72) hours of becoming aware (PDPA section 37(4)). Nexora AI Call will assist with data subject requests (access, copy, portability, objection, erasure, restriction, rectification, withdrawal of consent), which should be answered within thirty (30) days, using the platform's export and delete tools.

9. Do-not-call, consent and marketing duties

9.1 The Customer must not call or message any person who has registered on a do-not-call list, has opted out, or is on the Customer's or the platform's blacklist, and must honour such requests promptly.
9.2 Marketing SMS and marketing calls require prior consent where the law requires it. The Customer must retain proof of consent and provide it to Nexora AI Call on request. Every marketing SMS must include an opt-out instruction. The platform processes opt-out keywords (STOP, ยกเลิก, 退订, หยุด, UNSUBSCRIBE) immediately and in any case within twenty-four (24) hours across all systems, and sends a single confirmation SMS.
9.3 Default calling hours are 08:00 to 20:00 Asia/Bangkok; marketing calls and messages are limited to 09:00 to 18:00 on weekdays. The Customer must not circumvent these controls.
9.4 The Customer must comply with the AUP, including its prohibitions on scam and impersonation calls, and acknowledges that outbound content may be sampled and reviewed by Nexora AI Call for fraud prevention.

10. Fees, wallet, subscriptions and taxes

10.1 Fees are as stated in the Order, the price list or the checkout page. **Prices exclude 7% VAT unless stated otherwise.** Plans (THB per month, excluding VAT): Enterprise Basic 1,490; Enterprise Growth 2,499; Enterprise Team 4,999; consumer-style plans may be offered to businesses at their stated prices.
10.2 Usage rates (excluding VAT): outbound AI call THB 3.00 per minute; inbound AI answering THB 2.00 per minute; translation bridge THB 4.00 per minute; Thai SMS THB 0.75 per segment; number rental THB 150 per month; document pack THB 49 per document. Calls are billed per started minute or the configured billing unit (6, 30 or 60 seconds). The price list at the time of use prevails. Nexora AI Call will give at least

thirty (30) days' notice of increases affecting subscriptions or enterprise customers.
10.3 Wallet credit is prepaid service credit, not e-money or a deposit. It bears no interest, cannot be withdrawn or paid out in cash, cannot be transferred to another account or tenant (including another tenant of the same Customer group), and may be used only to pay for Nexora AI Call's own services. The only way to recover money is a refund under section 10.4. Paid credit expires twenty-four (24) months after the Customer's last top-up, with thirty (30) days' expiry notice. Free or promotional credit expires as stated in the offer (default thirty (30) days from issue), is used first for the products it is valid for, and is never refundable or payable as cash. Expired credit is forfeited without refund (breakage). These periods are current defaults and may be changed for future credit on notice under section 20.
10.4 Refunds: unused paid top-ups may be refunded in full less payment-gateway and bank fees if requested within fourteen (14) days of the top-up; thereafter unused balance is refundable on account closure less fees and a handling charge not exceeding actual cost (maximum 3%); used credit is non-refundable; credit for failed services is automatically returned. Refunds are paid to the original payment method within 7 to 14 business days. Refunds are processed under the Refund and Billing Policy, only to the original payment method and never in cash or to a third party. Payment-gateway fees are not refundable unless required by law. Refunds and cancellations of taxed supplies are documented by credit note.
10.5 Subscriptions renew monthly automatically. Cancellation takes effect at the end of the paid period. Invoices are payable on receipt or by auto-debit of wallet or card; late amounts bear interest at the legal rate of default interest under the Civil and Commercial Code from the due date. **Postpaid and invoiced accounts (dunning).** Where Nexora AI Call agrees postpaid or invoiced billing (with a credit limit and payment terms such as net 15/30/45), invoices fall due under those terms. Unless the Order says otherwise, Nexora AI Call sends payment reminders at three days before the due date (D-3), on the due date (D0), and at D+3 and D+7 after it. If the invoice remains unpaid, Nexora AI Call may suspend the Service at D+14 after notice (suspension of key enterprise accounts follows Nexora AI Call's internal approval). Service is restored once the overdue amounts (and late interest) are paid. Suspension does not release the Customer from payment obligations, and rented numbers may be released under section 6.3. The reminder and suspension days are configurable defaults.
10.6 **Tax invoices and VAT.** (a) VAT at 7% (or the rate required by law) is shown separately. The tax point for a top-up or subscription is the date Nexora AI Call receives the payment, not the date credit is used. (b) Juristic customers receive a full tax invoice showing legal name, address, 13-digit tax ID and branch (head office or branch code); individuals and customers who do not supply these details receive an abbreviated tax invoice or receipt. The Customer must supply accurate details; corrections after issue may require a credit note and re-issue. (c) Nexora AI Call automatically issues an e-Tax Invoice and e-Receipt for each successful payment, downloadable on the billing page. (d) Credit notes are issued for refunds, cancellations and price adjustments. (e) The issuing entity is determined under section 10.14.
10.7 **Withholding tax (WHT).** (a) If the Customer is a juristic person required by law to withhold tax on a payment, it must withhold at the correct rate (currently 3% for service fees, as a configurable default subject to the nature of the payment under the Revenue Code), remit it to the Revenue Department and deliver the withholding tax certificate (50 Tawi) for each payment to Nexora AI Call. (b) **Top-up with WHT option:** the Customer pays the net amount (97% of the fee before VAT) plus VAT at 7% calculated on the gross fee, and the wallet is credited with the GROSS amount. (c) The Customer must upload the 50 Tawi certificate for each such payment on the billing page. Nexora AI Call sends a reminder if it is missing thirty (30) days after payment. (d) If the certificate is not delivered, is invalid or does not match the amount withheld, Nexora AI

Call may claim the shortfall by invoice and/or hold or deduct the equivalent wallet credit and suspend the WHT option until it is delivered. (e) Withholding does not reduce VAT. Payments are otherwise made in full without set-off, and the Customer bears bank charges.
10.8 Disputed invoices must be notified in writing within thirty (30) days of invoice date with reasons; the undisputed part must be paid on time.
10.9 **Coupons and promotions.** Coupons may give a percentage discount, a fixed discount or free credit, with limits, validity period and plan or product restrictions stated in the offer. Unless stated otherwise, one coupon may be redeemed per verified phone number and device, coupons cannot be combined, have no cash value and cannot be transferred. If a purchase made with a coupon is refunded, the discount is reversed and the refund is limited to the amount actually paid. Nexora AI Call may revoke coupons and claw back credit obtained through abuse (including multiple accounts, automation or fake referrals) and suspend the account.
10.10 **Chargebacks.** If the Customer disputes a payment with its card issuer or bank, Nexora AI Call reverses the credit bought with that payment. If the balance is insufficient it becomes negative and the Service may be suspended until settled; the Customer remains liable for usage already consumed. The Customer should contact Nexora AI Call first. Abusive chargebacks are a ground for termination under section 18.
10.11 **Foreign-currency payments.** Where Nexora AI Call accepts a foreign card or currency, the amount is converted to Thai baht at a rate locked at checkout plus a conversion fee, both shown before payment. The wallet always stays in THB. Refunds are made in THB on the same basis and exchange-rate differences are not compensated. Bank charges are borne by the Customer.
10.12 **Referral program.** Where the Customer takes part in the referral program, the Referral Program Terms apply: in summary, the referrer earns a commission (rate set in those terms) on the referee's PAID top-ups for twelve (12) months; free credit is not commissionable; commission is clawed back if the underlying payment is refunded; self-referral is prohibited; payout requires approval. Reseller and agent revenue share is governed by the reseller agreement, not by this section.
10.13 **Trial limits.** One free trial is allowed per verified phone number, device fingerprint and IP address. Disposable e-mail addresses are blocked. Creating several tenants or accounts to obtain more than one trial is prohibited and may result in withdrawal of the trial credit and suspension.
10.14 **Contracting and invoicing entities.** Nexora AI Call's platform company ([บริษัท สยามวอยซ์ เอไอ จำกัด / Siam Voice AI Co., Ltd.]) provides the software and platform services. Resold telephony and SMS capacity may be supplied and invoiced by Nexora AI Call's telecom licensee [ชื่อบริษัทผู้รับใบอนุญาตโทรคมนาคม / telecom licensee name] (licence type and authorisation to be confirmed). Each tax document names the entity that issued it and uses that entity's own running numbers; where an invoice splits the software and telecom portions, each portion is documented by the entity that supplies it. Payment to Nexora AI Call through the platform discharges the Customer's payment obligation for all portions.

11. Service levels and support

11.1 Service availability targets, excluding planned maintenance: Enterprise Basic 99.5%; Growth 99.7%; Team 99.9%, measured monthly. Service credits of 5%, 10% and 25% of the monthly fee apply where monthly availability falls below the target, below 99.0% and below 95.0% respectively, as the sole remedy

for unavailability, claimable within thirty (30) days after month end. Support priorities P1 to P4 and response and resolution targets (P1 1h/4h; P2 4h/24h; P3 8h/72h; P4 24h/7d) are as set out in the SLA, which is incorporated by reference.
11.2 The SLA does not cover Supplier or carrier outages outside Nexora AI Call's reasonable control, Customer-caused issues, force majeure, or beta features.

12. Acceptable use

12.1 The Customer shall comply with and ensure its Authorised Users comply with the AUP. Nexora AI Call may suspend or restrict the Tenant, numbers or API Keys, and may apply the enforcement ladder in the AUP (warning, throttling, suspension, termination and reporting to authorities), including immediate suspension where fraud or illegality is reasonably suspected.
12.2 **Destination controls and fraud prevention.** By default only Thai destinations (+66 mobile and fixed-line numbers) are enabled. International, premium-rate and special numbers (for example 1900, 1xxx service numbers and satellite) are blocked unless the Customer requests and the platform administrator enables them for the Tenant after review; Nexora AI Call may attach conditions or lower limits. Nexora AI Call applies caps on concurrent calls, daily minutes and daily spend, automatically cuts off unusual overnight activity (22:00 to 07:00 Bangkok time), reviews a sample of outbound content (random sampling and keyword/AI scam flags), applies a fraud risk score (allow, review or block) and may suspend a number or the Tenant's outbound service with one click. See the AUP. Charges incurred through compromised credentials or API keys remain the Customer's responsibility under section 5.2.

13. Intellectual property

13.1 Nexora AI Call and its licensors own the Service, software, models, documentation and brands. The Customer receives a non-exclusive, non-transferable, revocable right to use the Service during the term.
13.2 The Customer owns Customer Data and grants Nexora AI Call a limited licence to process it to provide the Service, prevent fraud and comply with law. Output generated for the Customer (transcripts, summaries, draft documents) may be used by the Customer for its business, subject to third-party rights and the Customer's review obligation.
13.3 Feedback may be used by Nexora AI Call without obligation.

14. Confidentiality

Each party shall keep the other's non-public information confidential, use it only for this agreement and disclose it only to personnel, advisers, sub-processors and regulators who need to know and are bound by confidentiality, or as required by law. This does not apply to information that is public without breach, independently developed, or lawfully received from a third party. The obligation continues for three (3) years after termination (and indefinitely for personal data and trade secrets).

15. Warranties and disclaimers

15.1 Each party warrants that it has authority to enter into these Terms. The Customer warrants that it has the rights, consents and lawful bases for Customer Data and its use of the Service and that its use will not violate law.
15.2 Nexora AI Call will provide the Service with reasonable skill and care. Except as stated, the Service is provided "as available" and Nexora AI Call disclaims all implied warranties to the extent permitted by law, including as to uninterrupted operation, accuracy of AI or translation output, call connection rates, delivery of SMS, or fitness for a particular purpose.
15.3 Nexora AI Call resells telecom services from licensed Suppliers, who are independent contractors; delivery depends on their networks.

16. Indemnity

16.1 The Customer shall defend and indemnify Nexora AI Call, its affiliates and personnel against third-party claims, regulatory penalties, losses and reasonable costs arising from (a) Customer Data and Contact Data, including absence of lawful basis or consent; (b) the Customer's breach of the AUP, caller-ID, DNC or consent obligations; (c) the Customer's instructions to the AI; and (d) the Customer's violation of law.
16.2 Nexora AI Call shall defend the Customer against third-party claims alleging that the Service as provided by Nexora AI Call infringes Thai intellectual property rights, and pay the resulting damages finally awarded, provided the Customer gives prompt notice, control of the defence and reasonable cooperation. Nexora AI Call may modify or replace the Service or terminate the affected part and refund prepaid fees for it. This section is the Customer's sole remedy for infringement claims.

17. Limitation of liability

17.1 Neither party is liable for indirect, consequential, special or punitive loss, or loss of profit, revenue, goodwill or data, however arising.
17.2 Nexora AI Call's total aggregate liability arising from or related to these Terms in any twelve (12) month period is limited to the fees paid by the Customer for the Service in the twelve (12) months preceding the first event giving rise to liability.
17.3 Limits do not apply to liability for fraud, wilful misconduct or gross negligence, death or personal injury, the Customer's payment obligations, the Customer's indemnity for unlawful use, or liability that cannot be limited under Thai law.

18. Term and termination

18.1 These Terms continue until terminated. Subscriptions run month to month. Either party may terminate for convenience on thirty (30) days' notice (the Customer by cancelling in the application).
18.2 Either party may terminate immediately by notice if the other commits a material breach not cured within fourteen (14) days of notice, or becomes insolvent. Nexora AI Call may suspend or terminate immediately for fraud, serious AUP violation, legal or regulatory order, or non-payment.
18.3 On termination: access ends; the Customer may export Customer Data for thirty (30) days; then Nexora AI Call deletes or anonymises it according to retention periods (subject to legal-hold and records required

by law, such as accounting and tax records for ten (10) years); unpaid fees become immediately due; refund of unused paid credit is under section 10.4 and, for fees prepaid for a period of subscription, none unless termination is by the Customer for Nexora AI Call's uncured material breach, in which case pro-rata.
18.4 Provisions that by nature survive (including payment, confidentiality, IP, indemnity, liability, disputes) survive termination.

19. Force majeure

Neither party is liable for delay or failure caused by events beyond its reasonable control (including natural disaster, epidemic, war, civil unrest, government action, power or network failure, Supplier outage or cyber-attack not caused by its negligence) for as long as it continues, provided the affected party notifies the other promptly and uses reasonable efforts to mitigate. Payment obligations for services already delivered are not excused. If the event continues more than sixty (60) days either party may terminate the affected service.

20. Changes to the Terms and the Service

Nexora AI Call may change these Terms, the AUP, SLA and price list by giving at least thirty (30) days' notice by e-mail or in-app notice for material changes and for price increases affecting subscriptions or enterprise customers. Changes required by law or to prevent abuse may take effect immediately. If the Customer objects, it may terminate before the change takes effect and obtain the refund under section 10.4. Continued use after the effective date is acceptance.

21. Notices

Notices may be given by e-mail to the contact addresses in the Tenant (for the Customer) and to [legal@example.co.th] with a copy to [ที่อยู่สำนักงานใหญ่ / Head office address], Bangkok (for Nexora AI Call), or by in-app notice. E-mail notice is effective on the next business day after sending unless a bounce is received. Operational and security notices may be sent to the Tenant Admin.

22. Governing law and dispute resolution

22.1 These Terms are governed by the laws of Thailand.
22.2 The parties will first try in good faith to resolve any dispute through senior-level negotiation for thirty (30) days after written notice.
22.3 Any dispute not so resolved shall be finally settled by arbitration under the rules of the Thai Arbitration Institute (TAI), seat Bangkok. The language is Thai or English. The tribunal is one (1) arbitrator, or three (3) arbitrators where the amount in dispute exceeds THB 5,000,000. The award is final and binding.
22.4 Either party may apply to the courts in Bangkok for urgent interim or injunctive relief, and Nexora AI Call may apply for recovery of undisputed fees. This is not a waiver of arbitration.

23. General

23.1 **Entire agreement**: these Terms, the Documents and any Order are the entire agreement and supersede prior understandings.
23.2 **Severability, waiver**: unenforceable provisions are limited to the minimum extent and the rest remain; failure to enforce is not waiver.
23.3 **Assignment**: the Customer may not assign without Nexora AI Call's written consent; Nexora AI Call may assign to an affiliate or successor by notice. Nexora AI Call may use subcontractors and Suppliers.
23.4 **Independent parties**: no partnership, agency or employment is created, except that the AI acts on the Customer's behalf only within the Customer's instructions.
23.5 **Language**: these Terms exist in Thai, Chinese and English. **The Thai version governs in case of discrepancy.**
23.6 **Counterparts and e-signature**: acceptance online, or by electronic signature, is valid under the Electronic Transactions Act B.E. 2544 (2001).
